

**REMARKS**

Claim 1-11 remain pending in this application.

Claims 1, 2, 8 and 10 have been amended.

**Amendments to the Specification**

The Examiner has objected to the Specification for failing to have the required sections as specified in the office action. Attached is a substitute specification containing the various sections as required by the Examiner.

The substitute specification further includes amendments to the specification to refer to newly added figures 5, 6 and 4 on page 4 and on page 8.

The marked up version of the specification showing the amendments to the specification is also attached.

The Abstract has also been amended to place it in a more preferred form.

**Claims Objections**

Claims 1, 2, 8 and 10 were objected to for the various reasons set forth on page 3 of the office action. These claims have now been amended to satisfy the claim objections.

**Drawings**

The drawings were objected to under 37 CFR 1.83(a) as not showing every feature of the invention specification in claims is that "the lighting means and the reflectors (11,14) being offset from the center axis (18) and/or arranged at an angle to each other" as required by claims 5 and 11 were not shown.

New figures 5 and 6 have been added which illustrate the reflectors 11 and 14 being offset from the center axis 18 and new figure 7 has been added showing lighting means and the reflectors arranged at an angle to each other. The new figures have been labeled at the top with the expression "New Sheet" pursuant to 37 CFR 1.121(d).

It is submitted that these drawings do not contain any new matter since they simply illustrate what has been described in the specification previously claimed. It is therefore respectfully requested that these new sheets of drawings be entered.

**Patentability of the claims**

The office action indicated that the claims contained allowable subject matter and were only objected to for formal reasons. It is submitted that the claims have been amended to satisfy all the formal objections and therefore are now allowable.

**Conclusion**

In view of the foregoing, Applicant respectfully requests that a timely Notice of Allowance be issued in this case.

To the extent necessary, Applicants petition for an extension of time under 37 CFR 1.136. Please charge any shortage in fees due in connection with the filing of this paper, including extension of time fees, or credit any overpayment of fees, to the deposit account of Mattingly, Stanger, Malur & Brundidge, P.C., Deposit Account No. 50-1417 (referencing attorney docket no. WK-201).

Respectfully submitted,
